INIT Products and Systems

MOBILE-ITCS	MOBILEvario	ONLINEdetour (RVG)
MOBILE-PLAN	EVENDpc	
MOBILEstatistics	MOBILE-STOPinfo	

Project Partner

ITCS Südthüringen has existed since 2011 when Meininger Busbetriebs GmbH (MBB), Kommunale Personennahverkehrsgesellschaft Bad Salzungen (PNG) awarded INIT with setting up the multi-client system ITCS Südthüringen. In doing this they consolidated their existing, and until then, separate INIT systems into a common, multi-client system.

Contact

info@initse.com

INIT is the worldwide leading supplier of integrated ITS and Ticketing systems for busses and trains. For more than 30 years, we have been assisting transportation companies in making public transport more attractive, faster and more efficient.
